

Environmental Policy of Frama AG

- We operate as an environmentally-aware business. Making products and processes as environmentally compatible as possible while meeting customer needs is a declared goal of the company
- Environmental targets, periodically redefined, give impetus to continual improvements in the environmental performance of our products and processes. This steady reduction in environmental impact must be economically affordable.
- We comply with applicable environmental laws and regulations.
- We promote environmental awareness among our staff.
- When required, we inform our staff and the public in open and comprehensive terms about our environmental activities.
- We maintain regular, constructive contacts with the responsible environmental authorities.
