

# SUPER CUT SYSTEM SUPER CUT SYSTEM

All our KOBRA guillotines are equipped with our new "SUPER CUT" system featuring special carbon hardened steel blades unaffected by the wearing action of the materials to cut and, therefore, they provide longlasting cutting operations with the same cutting precision through the years.

Main feature of our KOBRA "SUPER CUT" system is the high quality 65° sharpening of the cutting blades which delivers smooth, accurate and reliable cuts.

The "SUPER CUT" system is a standard feature in the KOBRA guillotine line, from the KOBRA 360EM up to the professional model KOBRA 550AP.

"SUPER CUT" system:  
accuracy smoothness and durability.
