

FRAMA CYCLONE

MULTIPURPOSE HIGH VOLUME INDUSTRIAL SHREDDER

PROTECT PRIVATE AND CRITICAL COMPANY DOCUMENTS FROM THEFT AND MISAPPROPRIATION

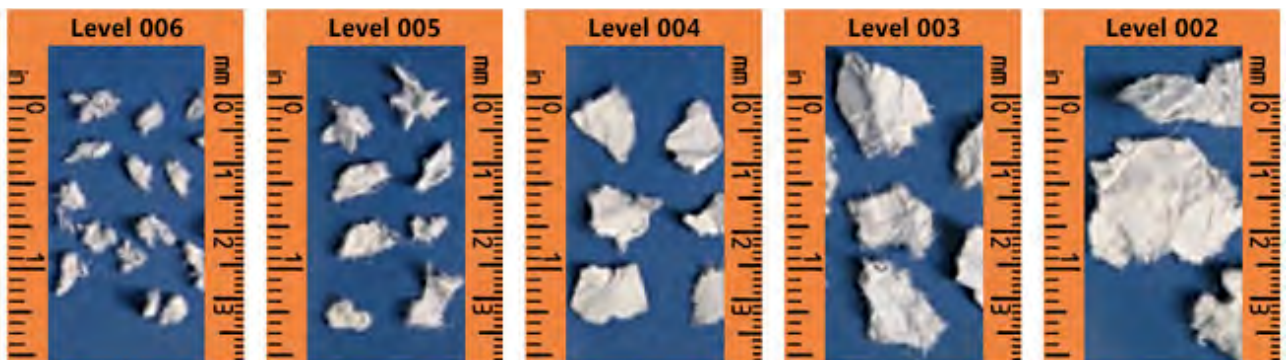

The Cyclone is equipped with a turbine generating a high pressure air flow and sets of high speed rotating blades. By making the air stream spin, particles are subjected to centrifugal forces and deposited from the air flow into the disposal bag. This unique shredding system delivers the highest shredding performance and efficiency along with maximum flexibility in choosing the correct security and bulk reduction level for any given application.

The Cyclone does not require the special maintenance and complicated oiling procedures that other machines of this type do. The Cyclone is designed for high volume shredding and maintenance free operation.

SECURITY TO SUIT

Five security levels are available with the Frama Cyclone. It is possible to switch the machine to any of the available security levels by a simple modification. This unique feature allows the Cyclone to produce the output particles which meet the requirements of the most demanding applications in terms of bulk reduction, shredding speed and security. The highest level of security (Level 006), sets the machine for high security shredding, maximum bulk reduction of material and minimum shredding output per hour.

General documents

FRAMA CYCLONE

- Shreds up to 500 sheets at once
- Shredding output of up to 420KG of paper per hour
- Specially designed for large quantities of cardboard, carton boxes, CDs, DVDs, Blu-Ray, credit cards, aluminium and plastic bottles
- Powerful and highly efficient motor
- Built in trolley for easy transport and replacement of the 400 litre disposal bag
- Mounted on casters
- Five levels of security available
- No maintenance required
- Power: 6kw
- Voltage: 380/400 3 phases neutral
- Dimensions: (WxDxH) 80x212x210cm
- Weight: 440KG

CYCLONE COMPACTOR

- Designed to work with the Cyclone shredder
- Compresses and reduces the volume of shredded paper.
- Makes recycling shredded paper easy
- Reduces dust compacting it with paper
- Works with all security levels
- Powerful and highly efficient motor
- Easy to use
- Power: 2.2kw
- Voltage: 380/400 3 phases neutral
- Dimensions: (WxDxH) 110x60x148cm
- Weight: 220KG
